11/9/2016

The following is the estimate for your office remodel:

- Demo room (leave existing ceiling)
- Install new drywall
- Install new floor and window trim
- Install new carpet squares
- Patch and paint

Note: The amount of dust that is created from installing the dry wall will ruin the current carpet. Even with our best efforts the dust will get under any floor coving we install.

Total for labor and material \$ 13,769

If you have any questions or concerns about this bid please contact me at your convenience.

Respectfully,

Joseph Longo
